

A Bunch of KDIs in a Soil Box, during Small Group Time

MARGARIDA RODRIGUES
Presenter

May 24

LUÍS RODRIGUES
Co-presenter

By offering a soil box as part of the learning environment, you can create a rich and engaging experience that promotes the child's holistic development. This practice is in line with the idea that children learn best through concrete, sensory, and interactive experiences.

During SGT you can introduce:

- ▶ New Activities
- ▶ New Concepts
- ▶ New Materials
- ▶ Special Opportunities for social interaction

... and it's so significant outside!

5 active learning ingredients

- ▶ Materials
- ▶ Manipulation
- ▶ Choice
- ▶ Child language and thought
- ▶ Adult scaffolding

Ideas for your SGT

Reflect on your reality
